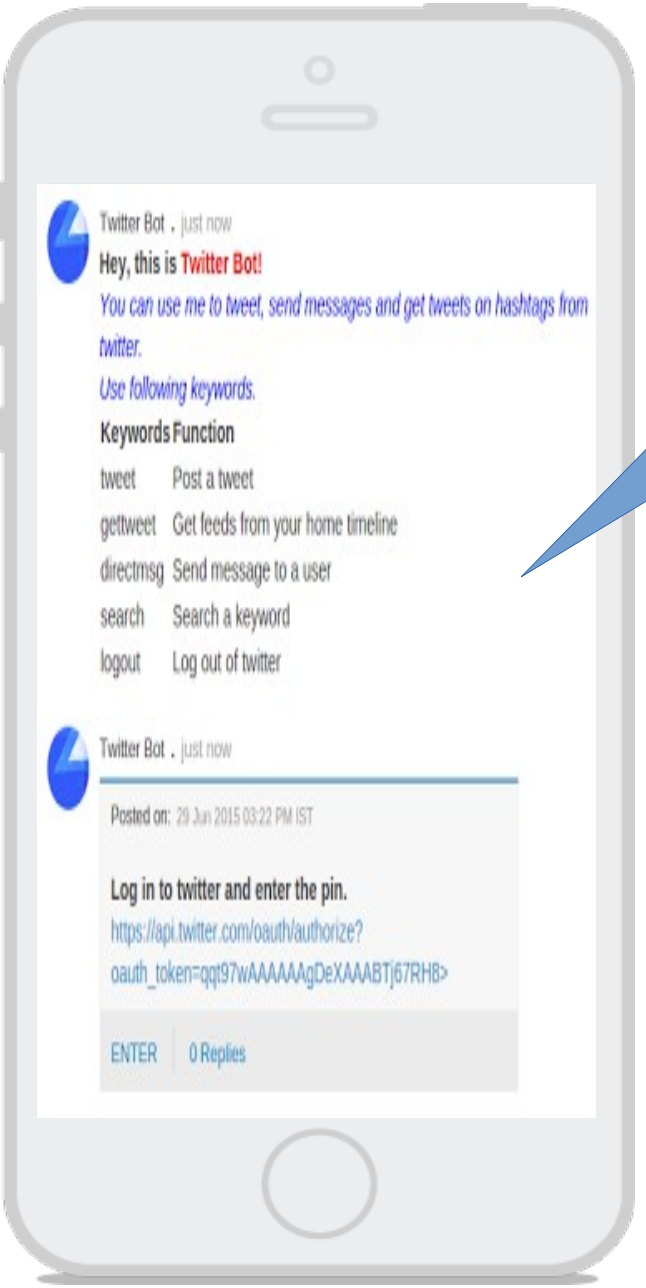
Teamchat
The Smart Mobile Messenger.

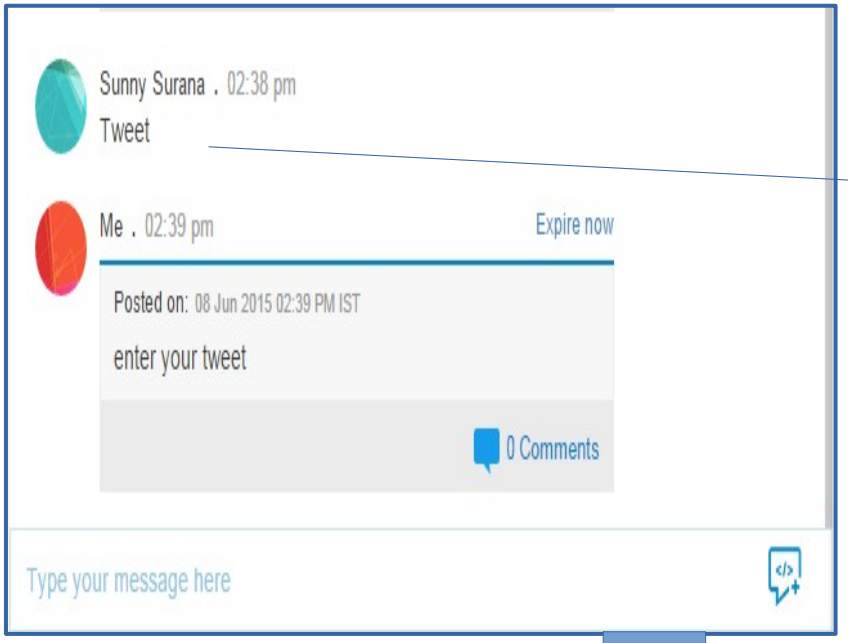
Twitter &Teamchat Integration

- It will help users to directly tweet, get tweets and send direct messages to its followers on twitter by just linking twitter with teamchat once.

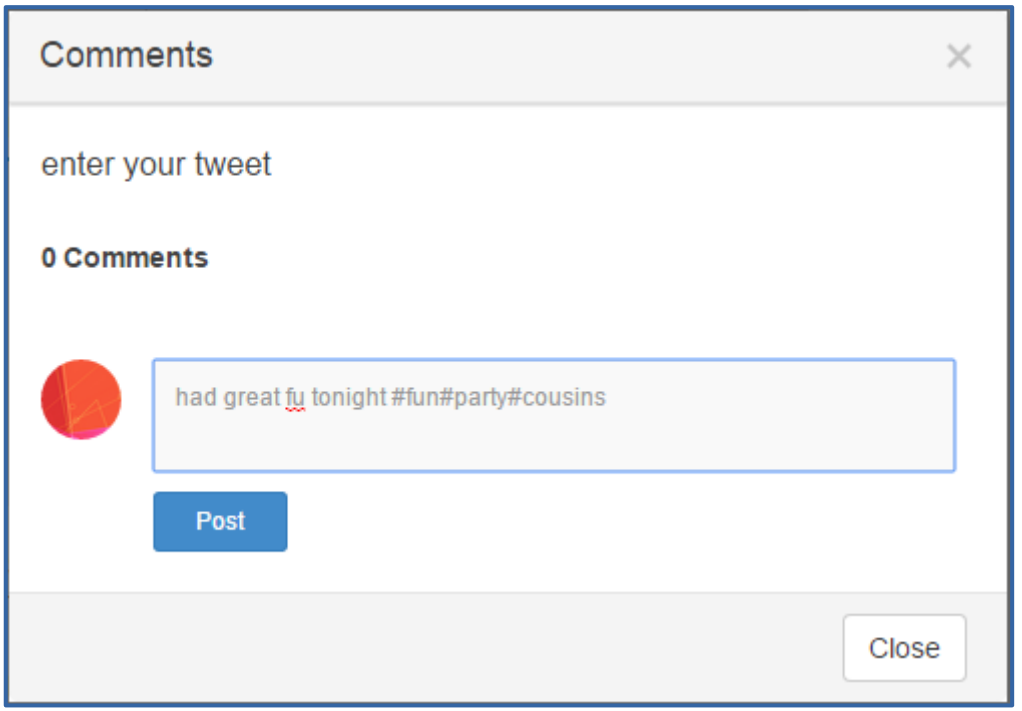
Work-Flow

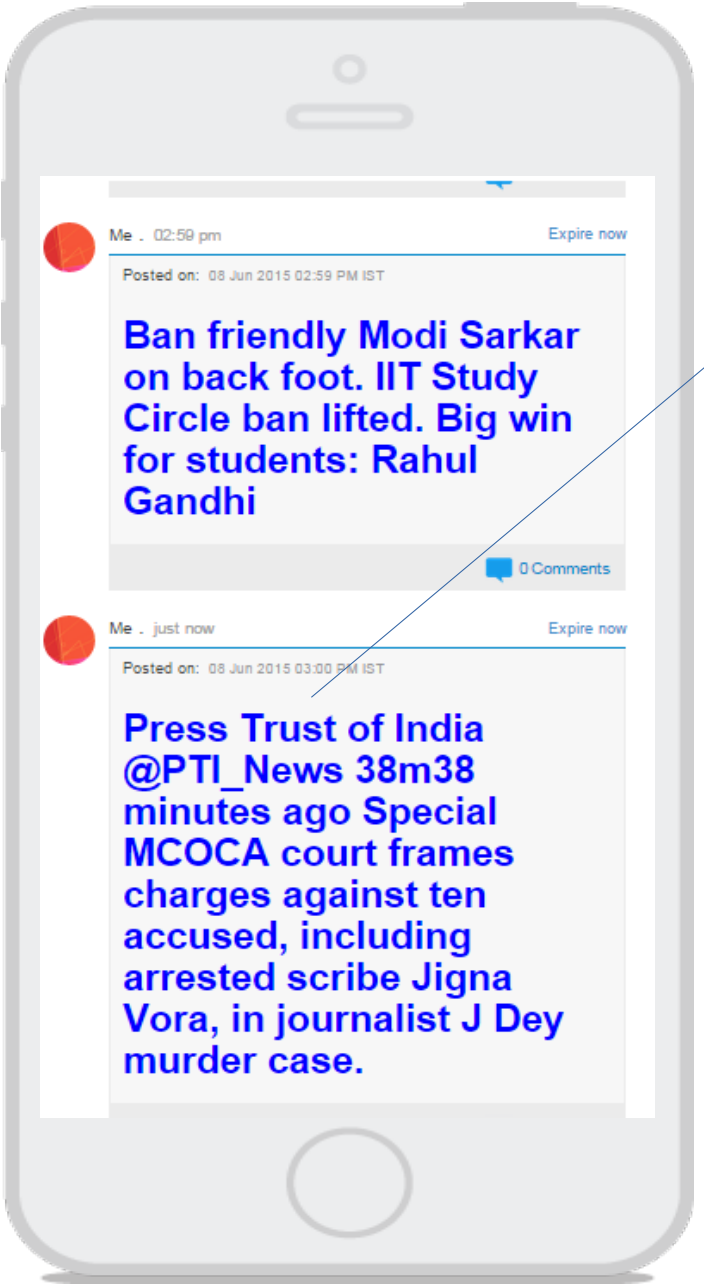


Help keyword displays intrductory messagelisto of keywords and gives a link to login.

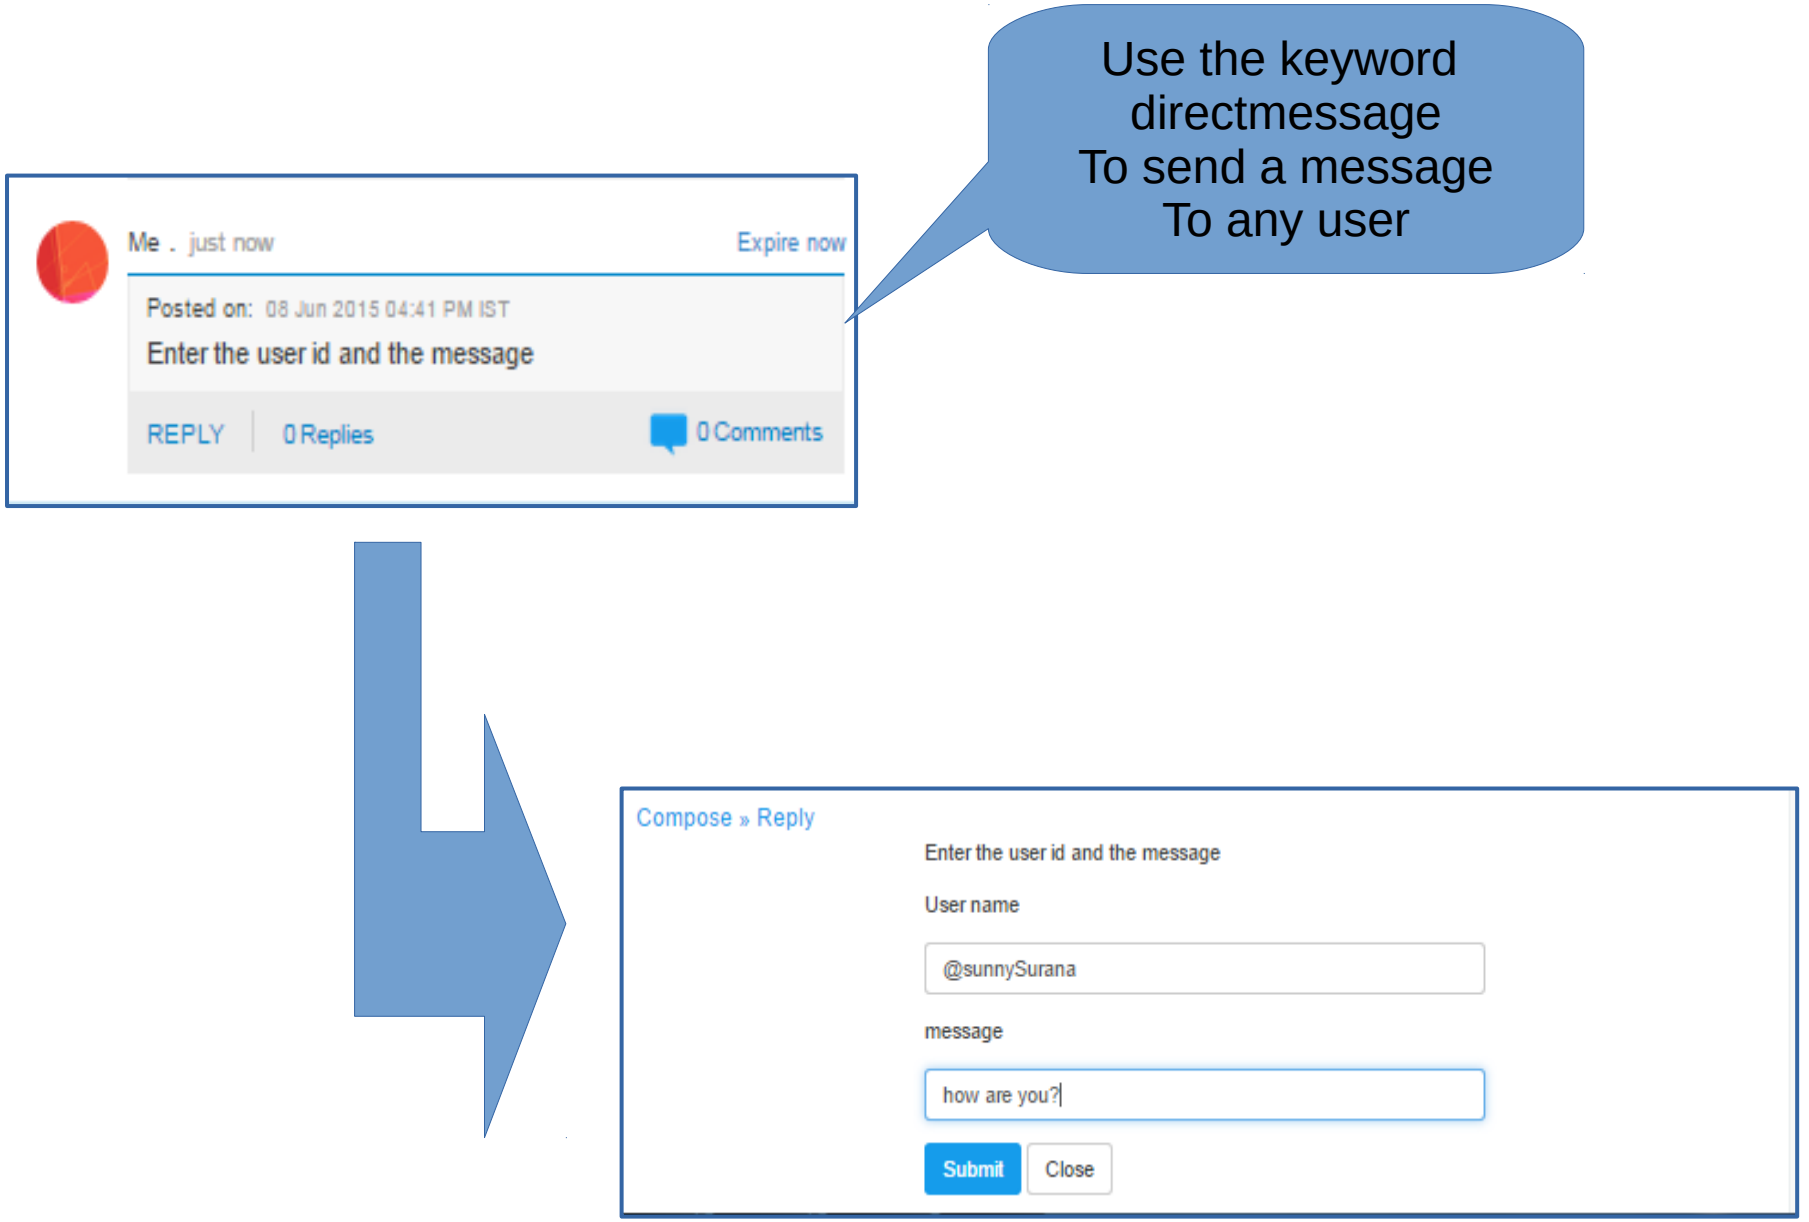


The tweet keyword tweets a tweet by a user on his linked profile





Gettweet keyword refreshes the twiitter page and displays all the New tweets on teamchat.



Use the keyword
directmessage
To send a message
To any user
Me . just now
