# Updating Status:-

After authentication bot will post 'you are successfully connected' and keywords to perform different action.

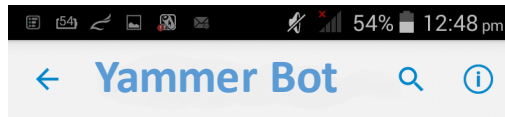

If we click on '**Select group**' list of group come up where we have to select group. Similarly we will select user. After successfully posting status Bot will post on teamchat 'Status has been updated successfully'.

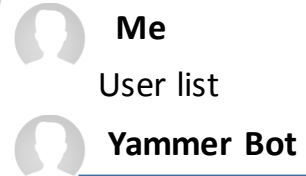

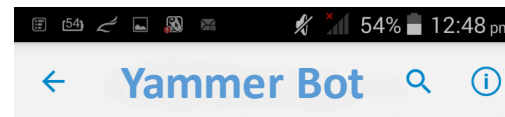

## User list:-

If type 'poll' a pop up will appear having field to write a question and four field for different answers. We can select group and people like in status.

User list

List of all users on  
Yammer from your  
company-

1. ABC
2. XYZ
- 3.pqr
- 4.abc
