

- **RSS Teamchat Integrati**

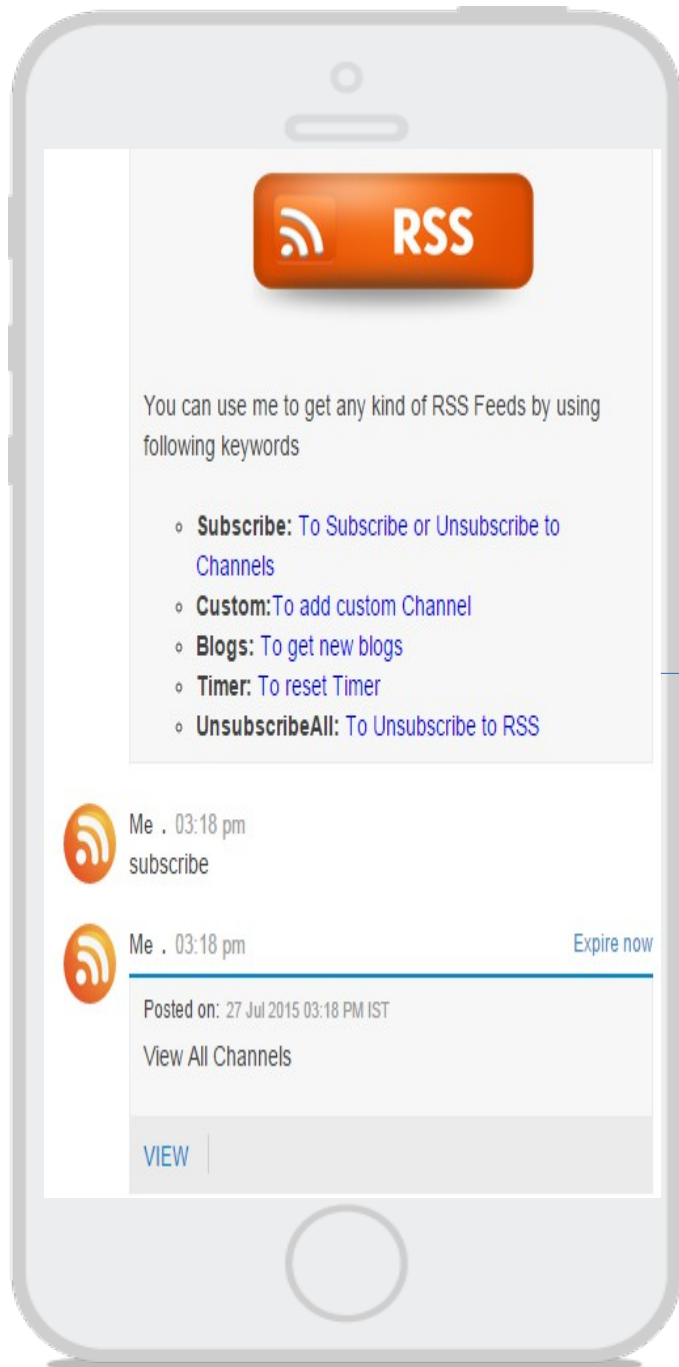

RSS Teamchat Integration

- RSS Teamchat Integration will help users to filter the blogs which they want to see.
- It will push notifications to users for every new news feed after certain time interval set by user directly as a chatlet on teamchat. So the problem to log-in every time is solved.

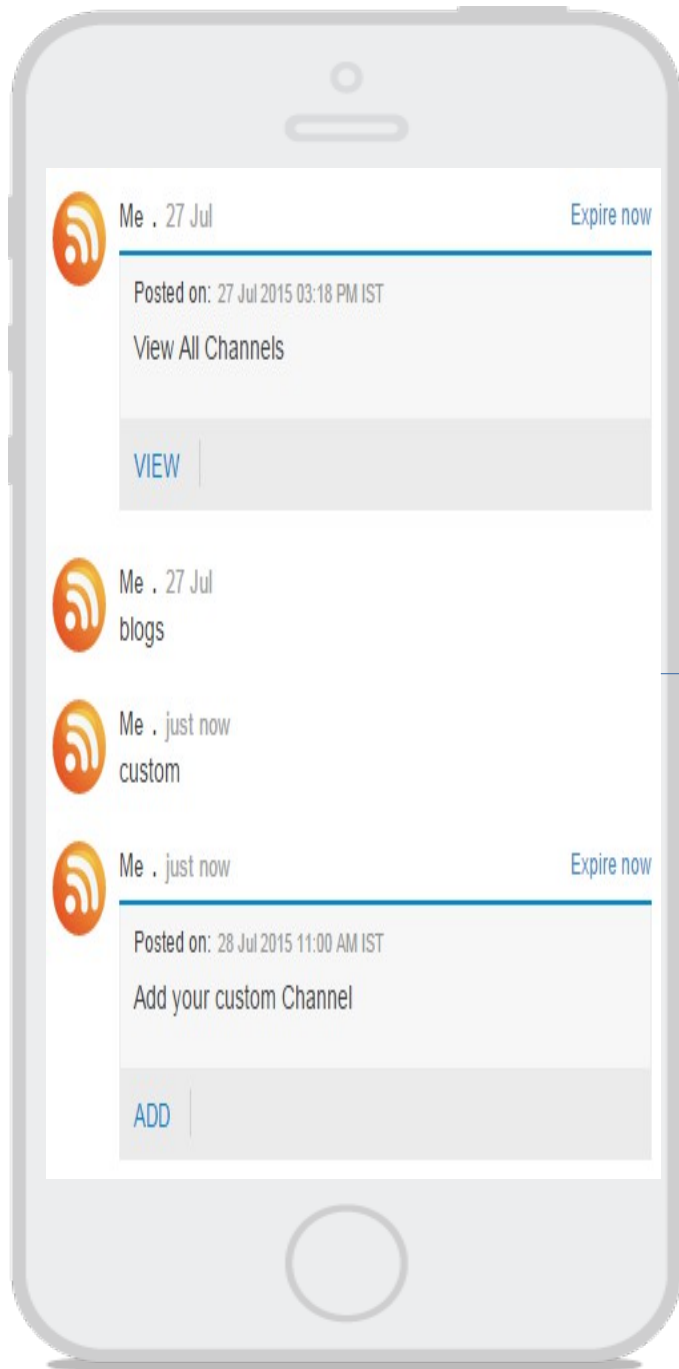

Help keyword initiates the bot and displays the list of keyword which can be used for getting feeds

Subscribe keyword allow user to subscribe to some of the RSS feeds

A form titled "Cricket Live Score" with a dropdown menu. The dropdown menu is open, showing options: "Select", "Subscribe", and "Unsubscribe". Below this, there are three more rows, each with a label and a dropdown menu. The first row is labeled "Times Of India" and has a dropdown menu with "Select" as the only visible option. The second row is labeled "NDTV News" and has a dropdown menu with "Select" as the only visible option. The third row is labeled "Movie Release Dates" and has a dropdown menu with "Select" as the only visible option.
