Hi, I'm Giphy Bot.

GIPHY

You can use me to search any gif image, using following keywords:

- **search -** Type this command to search any gif image
- **next -** Type this command to check the next result page for your searched keyword
- **rename -** Type this command to change the name of the tags currently stored

Note: To make your tags work , You have to make a P2P group with the bot present inside it.

The help keyword gives user
the description of keywords which
user can use

Me . 01:04 pm

search

Sorry, Your storage capacity is full!!!

Select a tag from the drop-down list in the reply to make some free space.

REPLY

User can add maximum 5 tags and if he tries to tag the 6th tag the following message is displayed

If the user still wants to add he can replace with the any of the stored tags

TAG successfully renamed!!!

giphy teamchat . just now

Posted on: 17 Jul 2015 12:21 PM IST

TAG already in use!!

Type **"rename"** again to change the name.

Same Tag cannot be given to any other image and it display error message while giving the name for the 1st time or while renaming some picture.

Posted on: 17 Jul 2015 12:26 PM IST

TAG successfully replaced!!!

If you give a tag to any picture which is already in
use the current image replaces the existing image
 with the same tag
